

Equipping Our Meeting Spaces for Zoom

Do you work in an office environment where they have Zoom-enabled conference rooms? Or teach in a hybrid classroom that connects remote Zoom users? St. Mark's is planning for our re-use of the building for meetings, and we are looking at setting up the Lounge (and later the Church Office Conference Room) with a Zoom capability to allow remote Zoom users to connect with members meeting together at the Church. If you know of a reliable technical solution that might work in our environment without on-site tech support, please contact the Church Office.
